

Polyisoprene Dental Dam

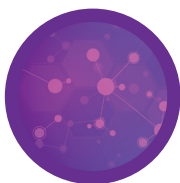

Product Description

As a world-wide leader in manufacturing and distributing dental dams, Four D Rubber continues to expand its non-latex dental dam options and now offers the Biodam® violet polyisoprene dental dam.

The primary function of the Biodam® polyisoprene dental dam is to isolate specific areas of the mouth during procedures, reduce the risk of infection, and provide comfort to the patient.

Key Features

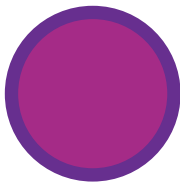

Mimics Latex

The Biodam® Polyisoprene Dental Dam uses a specially synthesized version of the natural rubber molecule to closely match the physical properties of natural rubber without the potential allergen of latex proteins.

Reliable Choice

The formulation of the Biodam® Polyisoprene Dental Dam is optimized for exceptional strength and stretch, providing reliability you can trust.

Increased Contrast

The violet color of the Biodam® Polyisoprene Dental Dam provides increased contrast to the tooth for better dental photography.

BIODAM[®]

Polyisoprene Dental Dam

Product Specifications

- Synthetic Polyisoprene, Not Made With Natural Rubber Latex
- Premium Violet Color
- 100% Non-Toxic Pigment
- Powder Free
- Non-Sterile/Single Use

Physical Properties

Tested under ISO37 standard

Shape	Square Cut
Tensile Strength (MPa)	≥25
Elongation at Break (%)	≥800%
Tear Strength (N/mm)	≥50

Dimensions and Packaging

Code	Size	Colour	Weight	Thickness	PCS per Box	Boxes for Inner Carton	Boxes for Outer Carton
LFBIOVIO01800620	6" X 6" (152mm X 152mm)	Violet	Medium	(0.18mm-0.23mm)	20	10	60
LFBIOVIO02300620	6" X 6" (152mm X 152mm)	Violet	Heavy	(0.18mm-0.23mm)	20	10	60
